

Prodane domene u 2017.

Ovo je popis nekih najvećih javno objavljenih i službeno potvrđenih prodaja domena u 2017. Datum prodaje je datum kada je prodaja domene službeno potvrđena (najčešće se prodaja dogodila nekoliko dana ranije). Za neke domene je naveden datum prodaje u 2018., ali one su prodane u 2017. i bile su pod NDA pa je tek u 2018. službeno potvrđen iznos prodaje i zato stoji datum iz 2018. (te prodaje su se ipak dogodile u 2017. pa su zato na ovom popisu prodaja iz 2017.).

Prvo su izlistane prodaje u svim ekstenzijama, pa onda ccTLD prodaje, pa onda prodaje u bilo kojoj ekstenziji osim .com (zato se neke ponavljaju).

Opet naglašavam da se cca 99% prodaja domena nikada javno ne objavio i da je na popisu samo jako mali dijelić prodaja koje su ostvarene u 2017. godini. Ja osobno sam u 2017. imao nekoliko prodaja koje bi po iznosu dospjele na ovaj popis (iako samo na začelje popisa), ali nikada javno ne objavljujem svoje prodaje i zato tih mojih prodaja nema na ovom popisu. Ovaj popis je samo informativan čisto da vidite koliko se u nekim slučajevima plaća za domene. Ovakve prodaje može ostvariti i početnik, ali ako investira određen kapital u kvalitetnu domenu koju će kasnije preprodati uz dobar profit. Nije realno da ćete uzeti domenu za \$10 i prodati je za par dana za \$100,000 ili više (nije totalno nemoguće, ali je jako rijetko i mnogi domaineri nikada to ne uspiju). Kada se uzimaju domene za desetak dolara i kada se one prodaju u kratkom roku, onda ipak treba očekivati „samo“ parsto dolara po prodanoj domeni, ali nerijetko i neki \$x,xxx iznos.
